templevirgin@hotmail.com

Highlights and Notes

- Completed four deer counts during the recommended timeframe to ascertain herd density and composition. Results below.
- Two fallow fawns, possibly from our loaner buck, were spotted in November and seen again last week.
- A sick blackbuck male died near the front entrance. If you see an exotic (blackbuck or fallow in clear distress, let me know so we can ascertain if the situation is fatal. White tail are property of the state and the wildlife chair cannot officially dispatch injured or ill white tail.
- Keep in mind our white tail and exotics CAN recover from broken legs and live a long life in a neighborhood like this.
- We believe we are losing some of our fallow population to neighboring communities. The board is reviewing quotes for fence repair and patching.
- People continue to achieve their tax exemptions, and this committee will continue performing the qualifying activities.

DEER COUNTS

Night survey 2/18/25

Whitetail

Males	10
Females	35
Fawns	0
Unidentified	15

Blackbuck

Males	4
Females	15
Fawns	2

Fallow

Males	0
Females	11
Fawns	0

Daylight survey 2/26/25

Whitetail

Males	4
Females	40
Fawns	0
Unidentified	0

Blackbuck

Males 10
Females 9
Fawns 1
Unidentified 1

Fallow

Males 1
Females 1
Fawns 1

Daylight survey 6/30/25

Whitetail

Males 10
Females 36
Fawns 3
Unidentified 1

Blackbuck

Males 9
Females 2
Fawns 0

Fallow

Males 1
Females 8
Fawns 0
Unidentified 1

Night survey 11/6/25

Whitetail

Males 6
Females 39
Fawns 0
Unidentified 10

Blackbuck

Males 8
Females 21
Fawns 1

Fallow

Males 1
Females 12
Fawns 0

DEER FEED PROGRAM

We partner with Lysee & Eckel for high protein, nutrient-dense quality feed for our deer population. Supplemental feeding our deer is one of the qualifying activities we do to keep our wildlife exemption on property taxes. Our pricing per bag is generally in the \$14-15 range, in line with or less expensive than feed from local stores.

PROPERTY TAX AG EXEMPTIONS

Ask me for details if you are not currently participating!

History of qualifying activities:

2018: Fence repair, feed purchases

2019: Replace NW fence, purchased two Fallow Bucks, game survey, feed purchases

2020: east fence survey/analysis, game survey, sold male blackbuck, feed purchases

2021: game survey. feed purchases

2022: major east fence repair, day and nighttime game surveys, feed purchases and supplemental watering

2023: day and nighttime game surveys, sale of female fallow deer, feed purchases and supplemental watering, habitat maintenance with gate/fence repair

2024: entry gate repair, day and nighttime game surveys, acquisition of yearling fallow buck to improve herd genetics, quarterly feed purchases, and supplemental watering

2025: 4 deer counts (two night, two day), quarterly feed purchases, and supplemental watering
